(mouse)</p>	۳

Read the passage and answer the questions.

Passage ١

There are many ways to keep the wildlife safe .One" simple" way is learning about endangered animals around you and teaching your family and friends about different plants, birds and animals. When you keep the nature safe and clean, animals will live longer. Visiting the national wildlife parks and museums can be helpful too. Also protecting the trees in the forests, not making fire and not cutting down the trees are suggested. Finally don't let the hunters hurt or hunt animals.

- ١- The word “simple” in the first sentence means
- a. different b. safe **c. easy** d. hard
- ٢- Which one is not mentioned as a way to protect the wildlife?
- a. Visiting the national parks. b. Protecting trees in the forests.
- c. Learning about endangered animals. **d. Feeding animals and helping them.**
- ٣- When the nature is safe and clean,
- a. animals will die out b. jungle wildfire will start
- c. animals will live longer** d. hunters can hunt more easil

Passage ٢

Alexander Fleming was a great researcher. He discovered penicillin in winter ١٩٢٨ when he was working in his laboratory. Nowadays, penicillin can be really helpful in fighting some diseases. At first "it" was very expensive for many years. Today people can find it whenever they need. Actually penicillin comes from a kind of mold. The mold is very much like the green thing that grows on bread, oranges, and lemons. Scientists didn't quit doing experiments and found other kinds of drugs like penicillin to save people's lives. This new medicine is called antibiotic.

- ٤- Nowadays Penicillin is as expensive as when Fleming discovered it.
- a. True **b. False**
- ٥- Which one is NOT correct based on the above text?
- a. Other researchers discovered penicillin later.
- b. Nowadays, all kinds of drugs are called antibiotics.**
- c. Fleming used a kind of mold to make penicillin.
- d. Fleming found penicillin in the laboratory in autumn ١٩٢٨.
- ٦- The underlined word "it" in line ٣, it was very expensive for many years” refers to.....
- a. the mold **b. penicillin** c. antibiotic d. bread
