	<p>Read the text and answer the questions.</p> <p>Do you eat breakfast every day? Researchers have found that people who eat a balanced breakfast are likely to be healthier than those who don't. One reason is that breakfast is a great way to give the body the energy that it needs. People who eat breakfast are more likely to participate in physical activities. Their bodies need to get energy for a new day after being about ٨ to ١٢ hours without food during sleep. Their mood and energy can drop by midmorning if they don't eat at least a small morning meal.</p> <p>١٨-Why do breakfast eaters are healthier?
