N

Do you eat breakfast every day? Researchers have found that people who eat a balanced breakfast are likely to be healthier than those who don't. ³⁶One reason is that breakfast is a great way to give the body the energy that it needs. ³⁷People who eat breakfast are more likely to participate in physical activities) Their bodies need to get energy for a new day after being about 8 to 12 hours without food during sleep. Their mood and energy can drop by midmorning if they don't eat at least a small morning meal.

4

36. Why do breakfast eaters are healthier?
